PRACTICAL TRAINING CONTRACT

This contract is concluded between:

• CONSORTIUL SANITY including Școala Sanitară Postliceală "SANITY" Bacău, Onești și Comănești represented by the director CĂRĂUȘ ANCUȚA and the Asociația pentru Promovarea Învățământului European Bacău, represented by the Președintele Prof. Dr. MOCANU LĂCRĂMIOARA- internship organizer

Address of the practice organizer: Bacău, str. Mihai Eminescu, no.33

email: apieb84@yahoo.com; phone: 0787542799

and KOS CARE SRL based in Milano in Via Durini 9, P.I n. 01148190547, represented by practice partner Enrico Brizioli - internship partner

Address of the practice partner: Milano, Via Durini 9

Phone: Fax.: +39 02 6713281 Fax: +39 02 87152817

Art. 1 - The object of the practical training contract

The contract establishes the framework in which a part of the practical training internship is organized and carried out, in order to learn on the job, as part of the professional training program, carried out by the following student/s in the field of professional training: health and pedagogical assistance, qualification of generalist nurse:

Internee/s:

Facility: Site Supervisor/Tutor:

The internship is organized in order to acquire professional skills, in accordance with the Standard of professional training and the curriculum approved by Order of the Minister of National Education.

All internees must be vaccinated (Covid) and have an evidence with them. During this period students will be designated as "internees" at our company. "Working hours" on average 38 hours per week. The insurance is paid by the host company.

Art. 2 - The status of the practitioner

The practitioner is, throughout the practical training period, a student of the educational unit.

Art. 3 - The framework in which the internship takes place

The internship is not carried out under an employment contract.

Art. 4 - Occupational health and safety

The internship partner has the obligation to comply with the legal provisions regarding the work health and safety of the practitioner during the internship. The activities carried out during the internship will be appropriate to the physical development, skills and knowledge of the practitioner, without endangering his health, development and professional training.

Art. 5 - Responsibilities of the practitioner

The practitioner has the obligation to comply with the established work schedule and perform the activities required by the tutor established by the internship partner, after prior training, in compliance with the legal framework regarding their volume and difficulty (according to the Code of Labor). In case of non-compliance, the practitioner is sanctioned according to the rules of organization and operation of the school. The practitioner has the obligation, during the entire duration of the internship, to use and complete a practice booklet that will include information on: the name of the training module; competencies exercised; the activities carried out during the practical training period, the tasks and the homework performed; personal observations regarding the submitted activity. The practice book is periodically checked by the teacher responsible for monitoring the practical training period. The practice book is proof of the practical training and is taken into account in the assessment and certification of skills acquired by the practitioner. During the internship, the practitioner has the obligation to comply with the internal regulations of the internship partner. The practitioner has the obligation to adopt and respect the general and specific occupational safety and health norms of the practice partner. The practitioner undertakes not to use, in any case, the information to which he has access during the internship about his internship partner or his clients, to communicate them to a third party or to publish them, even after the internship, only with the consent of that internship partner practice.

Art. 6 - Obligations and responsibilities of the practice organizer

The director of the educational unit that organizes the internship designates a teacher responsible for planning, organizing and supervising the development of the practitioner's practical training. The teacher appointed by the educational unit establishes the

thematic of practice and the professional competences that are the object of the practical training stage in accordance with the Standard of professional training and the curriculum corresponding to the qualification for which the student is prepared. The teacher appointed by the educational unit participates in the evaluation of the competencies acquired by the practitioner during the practical training stage.

Art. 7 - Obligations and responsibilities of the practice partner

The internship partner will establish a tutor for the internship, selected from their own employees. Before the start of the internship, the partner has the obligation to instruct the practitioner on occupational safety and health rules in accordance with applicable law. It will take the necessary measures for the safety and health at work of practitioners, as they are defined in particular by Law no. 319/2006 on occupational safety and health, as well as for the communication of occupational risk prevention rules (Labor Code). The practice partner will provide the practitioner with the necessary means to acquire professional skills.

Art. 8 - People designated by the internship organizer and the internship partner

The tutor(s)/ (person (s) who will have the practitioner's responsibility from the practice partner) - Ms./ Mr.....

The teacher(s) responsible for following the internship of the practical training from the internship organizer -Ms.

Art. 9 - Evaluation of the practical training stage

During the practical training, the teacher responsible for monitoring the practical training will evaluate the practitioner at all times, based on an observation / evaluation sheet. Both the level of acquisition of technical skills and the behavior and manner of integration of the practitioner in the activity of the institution (discipline, punctuality, responsibility in solving tasks, compliance with the internal regulations of the practice partner, etc.) will be evaluated.
